AD AGENCIES DEMAND ECO-FRIENDLY PROMOTIONAL ITEMS MADE IN THE USA
Businesses Want Logos To Remain Visible, Not To Be Trashed In A Landfill

Businesses across the globe are turning to unconventional marketing means to avoid blending in with the competition and to avoid the landfills. Eco-friendly. Made in the USA. Green. They are mailing coconuts emblazoned with their message because no one throws away a coconut.

Plastic tumblers from China, beach towels made in Vietnam, t-shirts from Pakistan are not cutting it in the marketplace. End-users can read. They despise foreign made products. Enter CoconutGreetings.com.

“After our mailing of 650 coconuts, we received many thank you emails, phone calls and even a few hand written notes from recipients. Getting a coconut just makes your day”, boasts a happy client.

Serving heavy advertisers such as Country Music Television, Hewlett Packard, Yahoo.com; CoconutGreetings.com will get your message out there and to STAY out there by mailing hand painted coconuts without a box. That’s right – a real coconut hand painted, addressed, stamped then handed over to the US Postal Service for delivery, no box needed. A cool keepsake for the recipient and a dream come true for the ad agency that secured the gig.

Since 1996 CoconutGreetings.com has been painting coconuts and coconut products for businesses needing that green, USA-made, eco-friendly promotion, for brides wanting a memorable wedding invitation and for individuals buying that gift for the person who has everything. In recent years the product line has expanded to include coconut drinking cups, hollow coconuts and coconut half shells.
